

Dermaplaning

Single Session **£40.00**

Dermaplaning is a procedure to create smoother skin the works by removing the very top layers of your skin where there is evidence of acne scarring, fine lines and some blemishes from sun-damaged skin, the treatment skims the surface of the skin using an exfoliating blade, as well as removing dead skin cells it also removes the vellus hair aka "Peach fuzz" dermaplaning is a non-invasive treatment and doesn't require any downtime, it's used by those wanting a more youthful and soft complexion to minimise the dullness within the skin and the appearance of minor skin damage

Microneedling/Dermaroller Face & Body 0.5mm-3mm

Single Session..... **£100.00**
5 Sessions 4-6 weeks apart..... **£450.00**

Otherwise known as Collagen induction therapy, dermarolling, dermapen & microneedling is the use of tiny needles to create a controlled micro-injury on the skin surface, the process stimulates collagen and elastin production for plumper, more radiant skin. "By creating small areas of injury, it jumpstarts the skin's repair cycle inducing collagen and elastin synthesis. Recommended every 4-6 weeks

Inno Aesthetics Chemical Skin Peels

Chemical peels are procedures that accelerate skin exfoliation to promote subsequent regeneration of the epidermis and dermis. The outer layers of the skin will peel off, giving way to a renewed skin, more luminous and with fewer imperfections. To that end, the professional uses specific chemicals at precise concentrations depending on the skin sensitivity of the patient and the desired outcome. Chemical peels can be used for skin rejuvenation. These are cosmetic procedures that can achieve outstanding results
